Student Ministries

The future of Church leadership lies in today's youth. Thus it is an important and vital part of our Church philosophy to invest in, equip, and train the youth of our community to be the spiritual leaders of tomorrow.

Children: Being an intern with Antioch Kid's gives you the opportunity to partner with us as we aim to make a difference in the lives of kids at Antioch. Each week, we want to provide a Sunday morning experience that is exciting and challenging, as well as provide tools for parents to be the main catalyst in their child's love for God.

Jr. High: Interns will be challenged to lead small groups and teach bible lessons as well as interacting with students on a personal level in groups and individually, spending significant amounts of time with students outside of structured events, and fostering authentic relationships with students.

Rites of Passage: Interns will help create the curriculum and develop the program that empowers youth to purposefully grow into the responsibilities of adult life. These interns need to have a grasp of today's youth, and the importance of a transformation process.

High School: Interns will be challenged to lead small groups and teach bible lessons as well as interacting with students on a personal level in groups and individually, spending significant amounts of time with students outside of structured events, and fostering authentic relationships with students.

College: Interns will have an opportunity to connect with and experience life side-by-side with other college age students for a peer mentorship relationship. They will also have the opportunity to join an existing college ministry home group as well as join a young adult mission-minded community group. Interns will also have the potential to lead evening worship and prayer nights.
